

The HTC Vive virtual reality is coming! Discover immersive virtual reality beyond imagination.

# HTC VIVE Virtual Reality

Vive is brought to you by HTC and Valve. Uniting passion, talent and innovation, Vive delivers on the promise of VR with best-in-class technology and content.

**htc** From internationally acclaimed smartphone design to the wild, new world of virtual reality, HTC creates experiences you can see, feel, touch and hear.

Vive is a first of its kind virtual reality system. Let yourself be visually, physically and emotionally amazed by new virtual worlds that flow with awe-inspiring characters, sights and sounds.

Everything you love about Steam is now available in virtual reality. Keep tabs on the newest releases, automatically download game updates, and create and share content with millions of your closest friends on Steam.

## BREAKTHROUGH TECHNOLOGY

**Room scale experiences, absolute tracking, chaperone guidance and everything you love about Steam, now in VR.**

**Move, walk, explore and discover. 360° motion tracking means realistic open-scale experiences.**

**A front-facing camera blends physical elements into the virtual world, and starts just the beginning of what's possible.**

## THE BEST IN VR CONTENT

**THE GALLERY: CALL OF THE STARSSEED**

Your missing sister, an ancient machine, and a sinister presence await within The Gallery: Call of the Starsseed, a short VR experience inspired by Greg Rucka's fantasy adventure films.

**THE BLUE ENCOUNTER**

Designed as a beautiful moment in passing or a memory more than a narrative story.

Experience the awe, wonder, and majesty of the ocean through numerous encounters including coming face to face with an 80-foot blue whale.

**HOVER JUNKERS**

A multiplayer shooter built from the ground up for the room-scale VR of Vive. Take control of a mobile floating platform facing enemies that park building devices out of soap.

## SEE FOR YOURSELF

Everyone gets blown away by the Vive experience. You should be next! Stop by one of our four locations to try Vive. You'll get to play around with crazy-cool virtual reality games and chat with other HTC aficionados. Believe the hype, get excited and see for yourself what the tech world's raving about.

### 1. INSIDE THE HEADSET

Once you put on the Vive headset, you're immersed in a world full of surprises. Walk around freely and explore everything the Chaperone guidance system keeps you safely within the bounds of your play area. Stunning graphics make it feel so real and surreal simultaneously.

### 2. COMPLETE CONTROL

HD haptic feedback and intuitive gestures mean playing games and interacting with the virtual world comes naturally. Vive's two wireless controllers feature 28 sensors for unobstructed movement, meaning you can do more in VR than ever before.

### 3. BASE STATION SALVATION

You get 360° motion tracking with Vive thanks to breakthrough base station technology that helps the headset and controllers track their exact location in space. Freely explore and interact with the virtual world. Room-scale VR puts you at the center of everything.

**REAL-WORLD AWARENESS**

Front-facing camera blends real-world elements into the virtual world.

**FORM-FITTING COMFORT**

Adjustable headset strap provides balanced comfort for extended use.

**VISUAL IMMERSION**

110° field of view for exhilarating immersion.

## PRODUCT SPECS

**PRECISION TRACKING**

32 headset sensors for 360° motion tracking.

**FEAST YOUR EYES**

2160 x 1200 combined resolution and 90 Hz refresh rate deliver eye-popping graphics and smooth action.

**ADJUSTABLE EASE**

Headset includes front lenses and rear pads provide customized comfort. Fit for most eyeglasses.
